

DEATHS.

MCKENZIE

Mrs. Mary McKenzie, aged forty, wife of Samuel McKenzie, died at her home in Shawhan, at noon Friday after a short illness. She is survived by her husband, her father, Thomas Burke, Jr. The funeral was held Saturday afternoon at three o'clock with services conducted at the grave in the Ruddles Mills Cemetery.

BALL

A. C. Ball, of Millersburg, received a message Saturday announcing the death of Mrs. Carlton Ball, of Millersburg, which occurred at eight o'clock, Friday night, at the Missouri Baptist Sanitarium, in St. Louis, Mo., where she had been a patient for some time. Mr. and Mrs. Ball left Millersburg last Monday for St. Louis to consult a specialist. Her death came following the birth of a daughter, who also died at the same time. Mr. Ball was at the bedside of his wife when she died.

The news of her death came as a great shock to a large circle of friends and relatives. Mrs. Ball was a daughter of Mr. and Mrs. John Wittig, of St. Louis, Mo. The funeral and burial took place Sunday afternoon at her old home, Trenton, Illinois.

Mrs. Mary Slack, aged seventy-nine, died Thursday evening in St. Joseph's Hospital, Lexington, where she had been a patient for some time. Mrs. Slack was stricken with paralysis some time ago. She was a native of Mayslick, where she was born May 8, 1843. Previous to being taken to the hospital, she had made her home with relatives in Sharpsburg and Lexington.

Mrs. Slack was a daughter of the late A. M. and Mary Calvert Peed, of Mayslick, and was a good Christian woman of the old-time school, whose hand was ever turned to doing good to all with whom she came in contact. She is survived by one brother, W. A. Peed, of Lexington, one grandson, Alfred Slack, of Georgetown, and several nephews and nieces, Mrs. Albert Hinton, of Paris, being a niece.

The funeral was held Saturday morning at eleven o'clock, with services in the Mayslick Baptist church, conducted by Rev. J. W. Porter, of Lexington. The interment followed in the Mayslick Cemetery. The pallbearers were her nephews, A. M. Peed, Jos. D. Peed, Allie Peed, Porter M. Peed, T. Y. Peed and Walter Shroust.

BEDFORD

George Madison Bedford, aged sixty-two, a native of Bourbon county, died at the home of his sister, Mrs. Maria Bedford, on Cypress street, at 9:30 o'clock, Sunday night, after a long illness due to a complication of diseases. Mr. Bedford had been in business for many years in Memphis, Tenn., as a shoe merchant, but failing health forced him to retire from active management of the

business. His health falling rapidly he and Mrs. Bedford came to Paris about a week ago, in hopes the change of climate would afford relief, but to no avail.

Mr. Bedford was a son of the late George M. Bedford, in his day one of the prominent Bourbon county farmers of the old-time regime. He was married here to Miss Bettie Brooks, of Kansas City. Besides his widow he is survived by one sister, Mrs. Maria Bedford, of Paris, and one brother, B. Frank Bedford, of Missouri.

The funeral will be held this (Tuesday) afternoon at four o'clock, with services conducted at the grave in the Paris Cemetery, by Rev. W. E. Ellis, pastor of the Paris Christian church. The pallbearers will be J. Hal Woodford, Silas Bedford, Ed. Bedford, Brice Steele, William Buckner and Benj. Woodford.

FERGUSON

Eugene H. Ferguson, seven-months-old son of Mr. and Mrs. W. J. Ferguson, died at the family home on Scott avenue, Thursday night after a short illness. The funeral was held Friday afternoon at three o'clock, with services conducted at the grave in the Paris Cemetery by Rev. W. E. Ellis, pastor of the Paris Christian church.

FOR SHERIFF

M. PEALE COLLIER

BOB GILKEY, DOUG THOMAS, DEPUTIES.

LODGE NOTES

The installation of new officers of Rathbone Lodge No. 12, Knights of Pythias, will take place at the lodge room in the Pythian Hall, in the Wilson building, on next Thursday night. The installation will be conducted by District Deputy D. Y. L. Farley, of Paris.

At the recent State meeting of the Pythian Sisters, in Lexington, held in connection with the Grand Lodge Knights of Pythias, Hermione Temple, of Paris, was honored, one of its members, Mrs. Martha Gardner, being elected to a Grand Lodge office, that of Grand Protector.

KEEPING COOL MATTER OF SIMPLE PRINCIPLES

Keeping cool in summer is largely a matter of observing a few simple principles in every-day life, according to specialists in the home economics department of the College of Agriculture. A sound-minded, well-nourished, sensible-clothed person will not suffer much from the heat, the specialists state. On the other hand persons who eat heartily of winter foods, who get less than eight hours of sleep out of every 24 and who wear badly-fitting shoes for instance are liable to heat prostration.

"The housewife should take advantage of the opportunity which presents itself during the summer months of training her family in health and food habits. It is no trouble to get children or adults to take cold baths during the summer and once started this good habit is apt to be continued. Fruits and vegetables are never so well received as during their own season while tea and coffee can be replaced daily by the more refreshing cool fruit drinks. "It is unnecessary for any housewife who is willing to plan out her work to spend long hours in a hot kitchen. Except in the houses where there are a number of men doing manual labor, and requiring heavy food, the cooking for the day can be done in the early morning. In summer the protein requirements of the diet should be filled by eggs, milk, fish, fowl and cheese, instead of by heavier meats. Vegetables, particularly the succulent ones, many of which can be eaten raw, should be used in abundance. Fruits and berries should appear as such, not combined with rich pastries. In canning by the cold pack process much of the heat and worry of canning is eliminated.

"The dining room should lose all of its unnecessary draperies and bric-a-brac, in order that dusting may be reduced to a minimum. Very attractive stencilled oil cloth doilies and paper napkins not only will make the table look and feel much cooler, but also will save heavy washing and ironing. All heavy rugs should be removed in the summer. Heavy upholstered furniture should be covered with cool-colored chintz. It is well to close the windows about eight o'clock and pull down the shades so as to keep out the sun and hot wind. When the windows are opened at five o'clock or thereabouts the house is cool and comfortable for the evening.

"Clothing worn in the summer should be light colored and loose fitting. Shoes should be given particular attention. They should have a broad, low heel, a straight inner line and should be of kid, rather than canvas or heavier leather. "During the summer a great many people make the mistake of eating too many frozen foods and too many food drinks. These food drinks if taken into the body to any extent retard the work of the digestive juices, thereby slowing down all of the digestive processes, and ultimately making the person feel hotter, rather than cooler."

REAL ESTATE TRANSACTIONS

The Paris Realty Co. sold Friday for Lawrence Mitchell his two-story residence, located on Pleasant street, to the Methodist church, at a price not reported for publication. The property will be used as a parsonage for the Presiding Elder of this district. The home will be improved and made ready for occupancy by September 1.

RELIGIOUS.

The annual get-together meeting of the Paris Epworth League Chapter will be held Thursday evening at 8 o'clock at the home of Mr. and Mrs. James Grinnell, on High street. Rev. J. E. Moss, of Nicholasville, will be the principal speaker. All Leaguers are invited and expected to attend.

Dr. Henry C. Morrison, president of Wilmore College, has been elected by the bishops of the Methodist Episcopal Church, South, to represent this church at a conference which meets in London, Eng., in August. Dr. Morrison and Mrs. Morrison will sail from New York, July 23, and expect to be gone three months.

At the Baptist church Sunday morning Wallace Clark, of Paris, who has just returned from a tour of China, Japan and Australia in the interest of the American Tobacco Company, delivered an interesting address to the Baraca Class. Mr. Clark told of his many varied experiences in the Oriental countries and gave an outline of conditions existing there. His address was a very inspiring and instructive one.

Southern Methodist churches of the Lexington district have raised nearly \$100,000 of their \$120,000 quota for the Educational Fund campaign, which was instituted several weeks ago, and the remaining \$20,000 will likely be raised within the next two months. The entire Southern church reports that \$20,000,000 of the \$33,000,000 asked, has been subscribed. George Williams, of Winchester, is district director of the campaign, and Rev. G. E. Cameron, Presiding Elder of the Lexington district, is in charge of the drive locally. The First Methodist church of Winchester, of which G. W. Banks is pastor, had a quota of \$25,000 and reports subscriptions amounting to \$40,000.

PROMISES EARLY FALL AND COLD WEATHER

With all records broken for accumulated totals of excess temperature since the first of the year, the Weather Bureau is at a loss to account for the absence of the normal wind drafts from the north which usually temper the rays of the summer's sun.

It isn't the heat so much as the length of the hot spell which has the country complaining, Edward H. Bowie, chief forecaster of the bureau asserted.

With a very few exceptions, he pointed out, temperatures reported have been within normal summer heights, but not for years have the general averages been so high.

Although the summer is but a few weeks, old Mr. Bowie called attention to the great number of days in which the mercury has touched 90 or better.

In many of the cities where the mercury has climbed only infrequently over the 90 mark excessive humidity had made the suffering as acute as if the temperature had been high, and this fact is also blamed on the absence of wind drafts from the polar regions.

The totals of excess temperature since the first of the year are now climbing toward the 900 mark, and as the law of compensation is relied upon by weather sharps in their predictions they warn the country to expect an early fall and cold winter.

"If that is any comfort now, make the most of it," Mr. Bowie concluded.

DEMPSEY'S OPPONENT GIVEN GREAT SEND OFF

Almost buried under flowers thrown by several thousand admirers who assembled on the pier, in New York, Georges Carpentier, French pugilist, smiled a good-bye and sailed for home on the steamship Savoie. Accompanying him were Pierre Mallet, his war comrade and chum, and his manager, Francois Descamps. "I have been treated wonderfully by the American people," Carpentier said, "but to describe my appreciation is impossible."

The length of his visit home is uncertain. Descamps said that a specialist would be consulted in regard to the break in Carpentier's hand and that if it mended as quickly as physicians here predicted, he probably would return early in September.

Dew will not stay on rose leaves, because these have an essential oil in them.

Twelve per cent. of the world's population is Mohammedan.

HOW KENTUCKIANS WON VAIL MEDAL FOR SERVICE

Kentucky is conspicuously represented in the award of the Theodore N. Vail medal to employees of the Bell Telephone System, who performed unusual acts of services during the past year. Awards to six individuals in the South are announced in the current issue of Southern Telephone News, and includes one employee of the Cumberland Telephone Company, in Kentucky, one in Tennessee, one in Florida and one in Alabama.

The Kentuckian who has won this honor is Benjamin Franklin McMahon, installer-repairman of the Cumberland Company, at Winchester, Ky. In July last year, Mr. McMahon was working with another man, repairing a drop wire at Winchester, Ky. McMahon was on a pole and his fellow workman on the ground, splicing the wire when it was accidentally brought in close contact with a 33,500 volt circuit. The current from this wire suddenly arced to the drop wire, knocking the other man

unconscious and burning him severely. McMahon instantly jerked the wire out of his hand, climbed down the pole and applied first aid treatment. After resuscitating the man he carried him to the office of the nearest physician for medical treatment. In recognition of his efficiency and courageous conduct in emergency he is awarded the Vail medal.

The longest mile is Sweden's—11,690 yards; the shortest, China's—750 yards.

Charles E. Hughes, Secretary of State, entered Colgate University at the age of 14.

Switzerland has adopted a standard voltage for electric circuits.
